The Halal Quality Control Group (HQC) is a leading European Halal certification body, with 13 established offices across Europe.

And with more than 40 years of expertise, HQC is globally recognized as the most expansive Halal certification authority to date.

As governments around the world increasingly mandate Halal certification by competent authorities, choosing the right partner to cover global markets is essential.

HQC is your trusted partner, staying ahead with continuous developments and regular updates within the industry, ensuring your business remains compliant and competitive.

We specialize in ensuring that your products and services meet the highest Halal standards, promoting a healthy and compliant environment for Halal production.
From food, beverages, cosmetics, to chemicals and services, HQC has you covered.

As the first Halal certification body established in 1983 in The Hague, The Netherlands, we remain a pioneer in the Halal certification industry.

Halal Training.
Solving the Gap.

The Halal Business Academy serves a crucial role in Europe's Halal landscape, where specialized training institutions are notably scarce.

Despite the growing demand for Halal-certified products, there exists a knowledge gap that often inhibits businesses and individuals from achieving Halal compliance effectively.

Halal Business Academy is designed to democratize access to Halal education, making it feasible for businesses of all sizes to understand and implement Halal principles efficiently.

The Halal Business Academy is an appointed training partner of the Halal Quality Control Group.
